## Many Dynamiters Are Arraigned In Court

UPON TO QUASH THE INDICTMENTS IS OVERHELD FOR SIX IN COURT

Dothan, Ala., March 12.—Sixteen defendants in the government prosecution in the alleged dynamite conspiracy were arraigned in federal court today by Judge Anderson. The defendants are charged with being part of the fifty-four dynamite men who were arrested in the city of Dothan last week.

Edward Zeelen of Chicago, one of the defendants' attorneys, began his argument in support of motion to quash the indictments on the ground that many of them charged the same offense of conspiracy to transport explosives from state to state illegally. The judge interrupted Zeelen with the statement that the motion to quash the indictments on the grounds of conspiracy was absurd.

There defendants, who have not yet been arraigned, are charged with being part of the fifty-four dynamite men who were arrested in the city of Dothan last week.

President among the indicted is court were Frank M. Ryan, Chicago president of the Street and Iron Workers Association, John F. Butler of Buffalo, New York, president and Herbert S. Harkin of Detroit, second vice president and secretary. In Mr. Ryan's confession, Harkin appears as the traveling superintendent of the dynamite, sound and construction of dynamite, and employment in western Tennessee. Harkin also said that he was the one who engaged him to do the work of the dynamite.

## THEY BUILDING IN FIVEHOLD MEN WOULD THEY BE TAXABLE

Some of the men and boys who have been visited with the Young Men's Christian Association petition to be of the opinion that they will have to pay their annual dues, but this is wrong as no financial aid will be asked of them in the building. It is finished that is why they wish to contribute to the erection fund. When the building is finished and everything ready for use they can pay their annual dues or pay them in the month if they wish.

All interested should attend the

**Bill Boll Weevil Coming**

**Enter The Corn Contest And Be Independent Of The Growth Of Cotton By The Time The Boll Weevil Comes**

**BUGGY & WAGON GIVEN AS PRIZES**

The government experts say that the boll weevil will be with us in two years. When that time comes our farmers will have to do something else besides raise cotton for a few years till they learn how to fight him. We have a plan, an educational plan. We want to educate you.

**LEARN TO MAKE CORN**

In order to stimulate corn culture in this county, the Edmond Lumber Co. of Marion, N. C. has very generously offered to give free through us as agents one of their famous buggies to the farmer living in Houston or that portion of Geneva county lying east of range 4 who raises the most corn on one acre of land.

**THIS IS A FREE FOR ALL CONTEST**

And to show you that we think corn culture in the intensive plan is a good thing, we propose to give a prize ourselves. We will give to the farmer in the territory mentioned above making the most corn on one acre of land a one horse Weber Wagon. Provided he uses our famous Patagonia Fertilizer on same.

What is the use in planting and cultivating corn on the old plan, get (in fifteen or twenty bushels to the acre when you can make from fifty to seventy five bushels to the acre by the judicious use of fertilizer. This would increase the cost of production but little. In fact it would only cost you the extra fertilizer used.

When the farmers of this territory thereby creating a market for his corn a thing we have long since needed.

**RULES FOR THE ABOVE CONTEST**

In competing for the Buggy, you must live in Houston County, the portion of Geneva east of range twenty four.

In competing for the wagon, you must live in above territory and use exclusively our fertilizer—Patagonia Brand.

**HOW CONTEST IS DECIDED**

A committee of three men to be selected from each tract by the tenants themselves will measure or weigh the corn made on each tractary public or justice of the peace. And bring that report.

Call at our store and register your name between now and May 1, 1912. If you desire to enter the contest as all contestants must be on record in our office.

**DISPOSITION OF THE PRIZE CORN**

You will want to know something of the disposition of the prize. You keep it and feed it to your horse. We want the more horse and hope that this will help stimulate corn raising more here. When we have more horse we will plant. Rest assured of that.

**WHEN PRIZES ARE AWARDED**

Prizes will be awarded sometime in the fall probably in November at a convenient time for all the contestants. Be sure to be here later.

We hope that 1912 will be a record year in corn raising in Alabama.

Come to our store and talk over the plan with us.

**Originals of Dickens**  
Look long and deep enough into per-  
sonality and if you find in your tem-  
perament something of the whimsical-  
ity of Charles Dickens, you will dis-  
cover in every man and woman that  
you meet a fragment of that humor of  
that pathos that righteousness of  
that freedom that absurdity of that  
pungent benevolence which make of  
the Dickensian world a world of  
the Dickensian world. I confess that I  
have found it many times difficult to  
perceive a grave aspect in the picture  
of the great and learned that often I  
have laughed at it, but for that  
laughter, once again, "Hullo!"  
Stiff and serious? While I laugh  
and it is in my mind to laugh at  
the poor and humble, I have not dis-  
covered a single Dickensian work, but  
of a great Dickensian work, but  
of the two, Dickensian Dickensian  
laughter and tears. So, my dear  
friend, to the man of letters and  
humor, every Dickensian work of  
fiction, every Dickensian work of  
fact, and the only Dickensian  
should be the Dickensian work of  
fiction.

## This \$900 Car Measures Up With Any \$1250 Car On The Market

EVERY man likes to make each dollar go as far as possible. He is wasting no money.  
Whether he buys a piano, suit of clothes, or an automobile, he continually looks for the  
greatest value he can get for any given amount of money. If a 30-horsepower, five passen-  
ger touring car of standard make can be bought for \$900, why on earth should he pay \$1250  
or more for the same type of car?

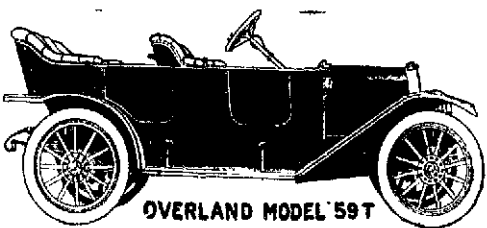

Our Model 59 is a 30-horsepower, five-passenger fore-door touring car. The price  
is \$900. It is a big, roomy, thoroughly high grade car. The motor will develop more  
power and speed than you will ever care to use. It is a handsome body design—graceful  
and good to look at. The pressed steel frame is staunch and solid. The selective trans-  
mission is fitted with F. & S. bearings—the finest in the world. In a word it is just as good  
and fine as this type of car can be made. You will not find its equal for less than \$1250,  
and a comparison of the specifications with any other 30-horsepower car will prove this  
statement.

This car at this price is due to the enormous manufacturing facilities of the Overland  
Company, which is the greatest plant of its kind in the world. They have just published  
a very thorough book which explains in a clear, definite and readable manner the difference  
in automobile plants. And the point of this whole book is to prove the economical manu-  
facturing ability of the Overland plants—to prove its strength by showing and explaining  
to you the interior and exterior of the greatest automobile plant in the world. It takes you  
over the entire 80 acres. The book is free and we want you to have one. It is interesting  
and full of information.

Above all it gives you a clear understanding of economics in the production of auto-  
mobiles in great quantities, and we believe it proves why no other manufacturer in the busi-  
ness can produce the car described below and sell it at this price without losing money.

A telephone call to us will bring you this new Overland book. It explains what they  
are and what they have got and why other cars of similar size and rating are from twenty  
to forty per cent higher in price. Get one of these books at once.
